Fred,

Rebecca Foster from Ada submitted the funding package for the FRN yesterday. She said that it would take a few days to get approved as you know..

Subject: Notes on FRN

Fred,

I just left you a voicemail message. Below are some notes I took while we were brainstorming about the additional language to include in the FRN.

Delete the highlighted section pertaining to the peer review and include something to this affect:

EPA will continue to review the status of its work on Pavillion in light of the additional information being posted in the record and in reviewing the comments that are received.

EPA will examine a number of options going forward that could include: a revised report, peer review and additional sampling.

We agreed to provide as much clarity as possible.

Hope this helps.
